

le vol du trinocle

Being elated by the vapours of some rare gas, the trinocle can suddenly soar into the sky and plucks up courage to come up to some balconies, windows, skylights, corridors and even over the roofs.

He might sometimes forget that curiosity could kill the cat and push things a bit too far to the point of becoming indiscreet.

Fortunately, the four mahouts will firmly moderate his enthusiasm

by dancing, singing, stamping their feet or cuddling him.

They will use various ruses to restrain the giant so that he will be calmly floating above the tiny passers-by.

But who knows who really pulls the strings?

concretely

An inflated helium flying puppet dances up in the air and its four pilots control it by the strength of their arms.

They dance sorts of Hakas and sing original distorted songs to avoid any uncontrolled behaviour from the trinocle.
